

Workshop Trainee

Helix Energy Solutions is an international offshore energy services company, at the forefront in providing speciality services to the energy industry including well intervention, robotics and decommissioning operations.

Helix Offshore Crewing Services Ltd (part of the Helix Energy Solutions Group) currently has an exciting opportunity for a motivated and committed Workshop Trainee to join our ROV & Trenching team.

The position of Workshop Trainee is initially based onshore at our Helix House site at Dyce, Aberdeen, UK for a minimum period of two years on a full-time basis 37.5 hours per week. During these first two years, full familiarisation and training will be given in relation to our ROV and Trenching equipment.

At the end of the two-year trainee period, the position then transfers to our offshore pool as an ROV Pilot Technician (job description attached).

Applicants must be 18 years old or above and, as a minimum, should hold an electrical or mechanical qualification or have electrical or mechanical experience. Candidates with a Foundation Apprenticeship in a relevant subject (Automotive, Civil Engineering, Construction, Engineering) will also be considered.

To apply for this vacancy please email your CV and covering letter to Sara Cowie, Senior HR Advisor: scowie@helixesg.com

Closing date: 14th November 2025
